Vaccination Requirements

All vaccines are required for any aspect of our facility. If your pet has had vaccinations elsewhere, please have a copy on hand or faxed to us from the other hospital/clinic.

In the event we need to update a vaccination, most can be done without a doctor's examination. However, by law, the rabies vaccination must be administered by the veterinarian, resulting in an examination fee as well.

All vaccines can be done at the time of drop off. You do not have to be present for vaccinations to be done unless you would prefer to sit in for an exam.

If your pet has had vaccine reactions in the past, we recommend dropping off earlier in the morning/afternoon so we may administer these vaccines and monitor your pet appropriately prior to closing.

Dog Vaccine Requirements:

Rabies (1yr or 3yr)

DA2PL-Parvo-Corona Yearly (sometimes called an 8n1 or distemper-parvo)

Bordetella every 6 months

H3N2 Canine Influenza Yearly

Cat Vaccine Requirements:

Rabies (1yr or 3 yr)

FVRCCP Yearly

Leukemia Yearly

For dogs, sometimes the distemper vaccine is given as a 3 year and separately from the lept. Our facility will accept the vaccine for 2 years.

If you have any questions or concerns, please don't hesitate to contact us.
